Dear Parent/ Carer

Key Stage 3 CGP revision and support materials

Our Key Stage 3 pupils have settled in well and made good progress over this half term so far. As always, we value the support parents provide pupils at home when they are completing their homework. To further support home learning, we would like to recommend some additional learning resources. These resources are available to purchase in many shops, but as a school we are permitted to sell them at a favourable rate to parents. The intention would be, where appropriate, to use these books between home and school to support your child's maths and English learning. Children who do not have access to these CGP resources will be given access to alternative, suitable material in school. There is a wide range of revision materials available in shops but these are the books we choose to recommend as a school and have found them useful for both pupils and parents over the past few years.

We are recommending the books on the attached order form. If you wish to purchase any of these, please complete the form, indicating the books you'd like to order, and return it to your child's form teacher. Please enclose cash or cheque payment with your order form (cheques should be made payable to 'Hexham Middle School') and mark the envelope with your child's name and form class. Please return your order and payment no later than **Friday 4 October 2019**.

Thank you for your continued support. If you have any questions regarding which books to order, please get in touch with your child's English or maths teacher in the first instance.

Yours faithfully

Mr Watters and Mrs Roff

Order Form for CGP Key Stage 3 Revision Materials

Further details about these resources may be found on the CGP website www.cgpbooks.co.uk
