

Getting the most from Reading Plus® at home

What is Reading Plus?

Reading Plus is a program for children aged 8 and above that teaches them to be stronger readers. It does this by developing silent reading fluency (reading speed), then introducing more complex stories (for comprehension), and advanced vocabulary (for knowledge).

Children have access to 800+ high quality online texts that are constantly updated and adapted to meet every child's needs, regardless of what level they are reading at. Teachers can monitor exactly what and how children are reading, meaning they can offer the right kind of support when needed.

What will my child gain from using the program?

First and foremost, we hope that they will get a lot of enjoyment from using Reading Plus! The stories are short and engaging to keep levels of motivation high, and your child will read about many things outside of their normal scope of reading - anything from 'What can one child do to save the world?' to the future of AI.

Your child will challenge themselves to become a better reader and in doing so, develop better reading habits. They will gain a greater understanding of what they have read and be better prepared for tests such as Year 6 SATs.

How does Reading Plus work?

Children choose a story (typically 6-7 minutes in length) from a level appropriate to their reading ability. Once they finish the story they answer 10 questions to test if they understood what they have just read. Teachers can see reports detailing your child's progress. Worksheets are available for extra support with specific reading skills.

Reading Plus is not meant to replace reading books, and Reading Plus is not just an eLibrary - the program is designed to teach your child to become a more efficient reader which will add to their enjoyment of reading independently - *developing a lifelong love for reading.*

5 Steps to Success!

#1 Take online assessment to determine the correct reading level for your child (this typically takes 30-45 minutes but can be done in 2 sessions). Remember to log out after each session!

#2 Complete 'Start-Up'. Start-Up is a two-step process when they begin the Reading lessons. This ensures that the rate of the Guided Window is set at the right speed for every child. The Start-Up process takes 2-4 lessons to complete (30-60 minutes).

#3 Aim for 80%+ comprehension scores in the Reading lessons.

#4 Build Combos. To earn a Combo, pupils will need to complete two Reading Lessons in a row at 80%+.

#5 Unlock new Levels by collecting Combos.

How does my child log in?

Your school should have sent you information on how to log in including a site code (which is unique to the school) and your child's username and password. If you are unsure of any of these, please get in touch with your child's teacher.

Does Reading Plus work on a laptop or an iPad?

Yes, Reading Plus runs on laptops and iPads, as well as iPads Minis, tablets, Chromebooks, desktops and MacBooks. We wouldn't recommend using Reading Plus on a smart phone simply because the text is too small to read effectively.

Do I need to download an app?

Reading Plus doesn't need an app downloading - it's all accessed through a secure website.

Is there anything that I need to be doing to support my child when they are working on Reading Plus?

As well as watching the videos with your child (Google 'Teacher Hub - Reading Solutions' and select 'Home Learning Resources for Parents and Pupils') you might want to sit with them when they first use the program. Other than that, it's just making sure that Reading Plus is used regularly as directed by the school.

Can I see what my child is doing on Reading Plus?

Yes, ask your child to show you their own personalised dashboard - from this screen you will be able to see when they have been on Reading Plus, for how long, how well they are doing, as well as the level they are reading at and their reading speed.

How long should my child be on Reading Plus?

Ideally every day for about 30 minutes (at home and in school combined), but at least 3 times a week. Little and often is best!

Why does the program use the moving bar when my child reads the stories?

We call this the 'Guided Window'. The Guided Window was developed to teach children to navigate across lines of text sequentially - this is sometimes called left to right scanning (try putting your finger on a word and moving it across the page!). You can find out more by searching for 'Reading Plus Efficiency Brief' free downloadable research summary.

What happens if we have a problem at home?

The easiest thing to do is to contact your child's teacher. If there is a problem, they should be able to advise and/or contact Reading Plus on your behalf.
